

EXPERIENCE

- **Java Full Stack Developer Intern** [*APCFSS, Andhra Pradesh*] *May 2025 – Present*
 - Contributing to a government-scale full-stack platform using Java (Spring Boot), React, and PostgreSQL for workflow automation and secure data processing.
 - Engineered robust REST APIs secured with JWT authentication, role-based access, and Spring Security policies.
 - Applied core backend principles including Dependency Injection (DI), IoC, and Bean lifecycle management using Spring annotations and configuration.
 - Built scalable and accessible UIs using React, with reusable components leveraging Hooks, Props, and Higher-Order Components (HOCs).
 - Integrated react-router-dom v6 for dynamic routing and route protection, enhancing role-based UI navigation.
 - Used async/await patterns with Axios for clean, non-blocking data fetch logic across dashboard and form modules.
 - Enhanced form experiences using Formik and Yup for dynamic validation and error handling; managed global state via Redux Toolkit.
- **Web Development Intern** [*Ignited Minds Organisation*] *May 2024 – Jun 2024*
 - Built a frontend Library Management System using HTML, CSS, and JavaScript to manage book issuance and returns.
 - Gained foundational understanding of web development by combining semantic markup, styling, and scripting for interactive user experiences.
 - Practiced essential web concepts like DOM manipulation, event handling, and component-based UI design.
 - Improved responsiveness and compatibility using Flexbox, media queries.

PROJECTS

- **Student Record Management System**
 - A complete CRUD-based full-stack system to manage student list and data operations, built using React, Spring Boot, and PostgreSQL.
 - Developed paginated and filtered API endpoints, integrated via Axios, and applied React.memo and lazy loading to enhance front-end responsiveness.
 - Ensured efficient data handling with real-time updates and modular components using conditional rendering and state-controlled UI logic.
- **Personal Portfolio Website** [Live Demo](#) | [GitHub](#)
 - Interactive and mobile-optimized website to showcase personal projects, skills, and work experience using React and React-Bootstrap.
 - Implemented smooth scroll and animation transitions via Framer Motion.
 - Crafted a refined UX using categorized tech stack icons, tap animations for mobile.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript and Python
- **Frontend Development:** HTML5, CSS3, Bootstrap, React.js, Redux, Formik
- **Backend Technologies:** Spring Boot, Node.js, RESTful APIs
- **Databases:** PostgreSQL, MySQL

- Version Control & Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA
- Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees, Recursion, Sorting & Searching

EDUCATION

- B.Tech in Electronics & Communication Engineering, RGUKT Srikakulam 2021 – 2025
CGPA: 9.01
- Pre-University Course in Maths, Physics & Chemistry, RGUKT Srikakulam 2019 – 2021
CGPA: 9.36
- SSC, Zilla Parishad High School 2018 – 2019
GPA: 10.00
